# About Our Product

Designer Stone offers three entirely different styles of artwork. Early on our company got established by providing "Treasured Finds", these are traditional garden essentials; Birdbaths, Planters, Animals, and of course, Statues. Within a short time we began developing "The Gentilucci Collection", which offers original sculptures. This artwork has a spiritual reverberating quality; it is typically inspirational, expressive and amusing. It is the type of Garden Art which evokes a glimmering smile, it can remove life's pressures for a few precious moments and can remind us of who we are and what we live for. Lastly we offer "The Heritage Collection" these "vintage-style" recreations will possess pocks and pitting, are chippy shabby chic, look like they're pulled right from grandma's estate but have brand new integrity and are absolutely timeless.

Regardless of origin, all of our products are **proudly hand crafted in San Diego, California, USA.**, constructed of the highest grade Portland cements, a specialized aggregate and a plethora of strengthening additives. Every batch of concrete produced is treated as though we're making a soufflé. Each ingredient is measured down to the ounce and followed as you would a recipe. Once blended these materials allow our cast-stone product to cure to a level 3x stronger than a building's foundation. This means our product is **ultra durable and is outdoor safe** in the harshest climates ranging from freezing Colorado winters to arid Arizona summers.

We offer two different coloring methods. Our natural tones are achieved with **Integrated Coloring**. The pigment is throughout the product in its entirety, making it scratch resistant. Furthermore, the colors will never bubble, peel or flake as most topical applications do and our colors will never fade. For a deeper, richer antiquing option we offer **variegated stains**. This premium two-tone enhancement accentuates the product detail and texture. These stains are water based thus user and environmentally friendly. Each piece will stain in its own unique way with varying imperfections which add beauty and originality to our hand-crafted products. Although we strive for consistency a variance is to be expected.

Once our cast stone garden art is hand finished and cured, we apply a clear water repelling **protective sealant**. This provides our product with even greater durability and you and your customers many more years of enjoyment. To further enhance our products detail and texture we offer a top-of-the-line high gloss beautifying sealant. This additional application not only gives our artworks an upscale look which lends for indoor design and decorating but it also provides additional protection against sunlight moisture, and efflorescence.

## Integrated Color (Natural)

## Premium Variegated Stains\*

## High Gloss Beautifying Finish\*\*

\* Premium Variegated Stains cost an add'l 10%. \*\* High Gloss Finish costs an add'l 25%

# About Zen Creations

*When customers hold our sculptures, feel the quality....*

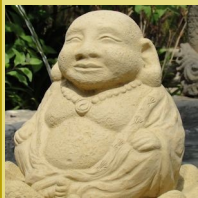

..caress the artwork and absorb the meaning, a smile magically appears. Once they notice the product is American made, the only questions remaining is where to place it and who else merits an amazing feel good gift.

Created by Michael Gentilucci, Zen Creations have become Designer Stone's most popular original line. They encompass all Michael strives to achieve with his artwork crafting amusing, expressive & inspirational sculptures.

There are many reasons why customers are drawn to these sculptures, whether it is a common affection towards a particular creature or a more complex spiritual connection. These tranquil creations share a few essential traits which make them universal and visually appealing to people of all walks of life. Every Zen sculpture possesses a sense of calm, an abnormally large head and a robust belly...this mishmash of delight

simply makes people happy. They each have a personalized Chinese character etched into the back of their robe. The symbol represents each beings primary attribute. Dogs are commonly recognized as loyal and therefore the character associated with our Meditating Dog sculpture means "loyalty".

Some of our sculptures are minimalistic in style, whereas others wear jewelry, adornments or have decorative embroidery. Although each sculpture is defined by their unique differences, they also compliment each other, whether you group a Meditating Lion, Tiger & Bear or pair up a Meditating Angel with a Gargoyle. People collect Zen Creations for many different reasons, but most agree, the allure resides in a combination of connectivity and the uplifting message which accompanies each sculpture. You will also notice they are all stamped with our Designer Stone seal, as all of our original sculptures are copyright protected.

Every Zen Creations is available in Medium (6"x5"). The more popular styles are offered in Small (3"x3") and Large (9"x8"). You can order ala carte or choose from dozens of easy order packages which are designed to save you time and money. Packages vary in size from small and UPS shippable to complete display systems.

So what's next? Look for a New extra large size plus check out our NEWEST style Zen Creation. Each comes w/ Cats Eye Gazing Ball or add loose change, incense cone, flower pedals or whatever.
